

**IMPORTANT UPDATE  
LIVESTOCK MARKETS  
OPERATING RESTRICTIONS  
as at 24 March 2020**

Livestock markets can still continue to operate as part of the food chain but subject to the following strict conditions:

- Fatstock and storestock only. All breeding stock is now specifically excluded.
- Vendors must remain in their vehicles while staff unload their stock and then **immediately** return home. Vendors must not enter the market building.
- Buyers must be registered and must adhere to the 2m social distancing around the ring.
- Only registered buyers are allowed into the sale ring areas.
- Buyers must use the sanitiser and hand wash stations to maintain good hygiene standards.
- The café is closed but limited takeaways will be available.

It is vitally important that everyone abides by the above in order for the market to continue to operate.

**Thank you for your co-operation.**
