Sage is a sweet Welsh Section B gelding who has been with me since a foal. He is easy, although can be nervy of new people for a few days. Didn't make the height so currently wasted in the field. He did groundwork and was lightly backed as a 4 year old but never brought back into work due to having no small jockey and limited time. This summer he has had toddlers sit on his back on the lead rein fully tacked up with no quibbles . Would be a childs best friend with some work put in. Genuine sale.

	<p>Goldie is an eye-catching old fashioned registered Welsh Section D, with some wonderful breeding, (Nebo, Parc, Paddock). We bought her in 2015 when she had recently been backed and ridden away, having previously been used as a broodmare. We were told that she was a homozygous Palomino. She had been recently broken but due to a family tragedy it meant that there was no longer a job for her. She was then untouched until this year. At this point she was professionally rebroken and then ridden by a relatively inexperienced 50-something mother and 20-something daughter and the vendors 13 year old granddaughter who has only ridden ponies previously. She has hacked out and done work in the school and is generally very quiet and unflappable. However, she has, on a couple of occasions, been startled and started to buck. In our opinion and that of the professional yard that rebroke her she has previously been beaten and we feel that this is the reason for this out of character reaction. Due to this, we feel that she needs an experienced home. She really is a lovely person and all the vendors family are sad to see her go.</p>
