This fabulously striking Shetland with his flaxen mane and tail has been used by grandchildren as a lead rein pony. He has regularly gone to local shows in bonny pony classes. He is good to deal with and the children can catch him and groom him, although he can be cheeky at times. Latterly he has been driven by young boys to harrow and level a manège. Sadly he is now outgrown and needs a new loving home.

He was broken late due to being overstocked and has not really done much at all. He has hacked out a bit alone and in company, and popped round a cross county course a couple of times. He is very green, but will try his best for you. Not a bad bone in him. I took him in PX for my horse lorry recently; but realising just how big he was and I really need something much smaller. He has the most amazing jump breeding with Demonstrator, Capitol 11, Dynamo, and Quidam de Revel in his parentage. This horse could succeed in any field with very little work. He has a great personality all round. Sold sound and vice free.</p>
