Freddy is a big sobby, gentle giant who loves human attention. He came to me from the breeder. He has never been to a sale before. Very sweet natured and friendly. Due to his height he was not backed until he was 5 and then turned away for a year. Since then he has done a little bit of everything, show jumped and cross country and seen hounds. He can be a bit spooky to hack out in a new/unfamiliar environment on his own but will go (fine in company). He has been out of work for the most of this year (daughter working away and at College), but he will hopefully be back in work this week for the sale. Fred has beautiful floating paces and a smooth canter. He is snaffle mouthed and not at all strong. He does not bite, kick, buck, bolt or rear. He is good to catch, box, shoe and clip and has an amazing jump. He has no vices. Up to date with vaccinations and working. Lives in or out, alone or in a herd. A really sad sale of this amazingly well bred boy, but owner giving up horses due to poor health.
